ANURAG MISHRA

Sultanpur, Uttar Pradesh, India | +91-7800509636 | mranurag0007@gmail.com | LinkedIn | GitHub | HerdIntel (Live)

SUMMARY

B.Tech Information Technology student and full-stack software engineer with hands-on experience in JavaScript, TypeScript, Python, React.js, Node.js, Express.js, and MongoDB. Experience building and deploying production-style full-stack applications, conducting applied AI/ML research, and leading cross-functional engineering teams. Currently contributing to a live monitoring system for the Indian Navy using Grafana and Prometheus at C-DAC. Strong foundation in Data Structures and Algorithms, REST API design, system design, and database management (SQL and NoSQL); co-authored and presented an IEEE-format research paper on AI-based livestock monitoring at an international conference.

EDUCATION

Dr. Ram Manohar Lohia Avadh University *Ayodhya, India*

B.Tech, Information Technology; CGPA: 7.22 (1st Yr), 7.05 (2nd Yr) *Jul 2023 - Jul 2027 (Expected)*

- Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, Software Engineering, System Design, AI/ML

EXPERIENCE

Software Trainee - Work-Based Learning (WBL) *Aug 2026 - Feb 2027*

C-DAC, Thiruvananthapuram *Thiruvananthapuram, India*

- Building and maintaining real-time monitoring dashboards using Grafana and Prometheus to track system health and application-level metrics.

AI Research Intern *May 2026 - Jul 2026*

IIIT Naya Raipur *Naya Raipur, India*

- Conducted a structured critical analysis of an existing IEEE Access multi-agent AI system (CowNet-AI), identifying 10 specific deployment and architectural gaps against a published benchmark dataset.
- Co-authored an IEEE-format research paper proposing an edge-cloud hybrid architecture with temporal graph transformers, multimodal sensor fusion, SHAP/LIME explainability, and federated learning.
- Presented the paper at ICNACT 2026 (3rd International Conference on Nonlinear Analysis & Computational Techniques), VIT Bhopal University.

Team Manager - CDO Intern *Apr 2025 - Jun 2025*

Chief Development Office, Ayodhya *Ayodhya, India*

- Led a cross-functional team to design, build, and deploy a full-stack SHG Inventory Management System end-to-end, from planning through delivery.
- Implemented live inventory tracking, sales/profit monitoring, and QR-code data ingestion, improving operational efficiency for end users.

PROJECTS

HerdIntel - Precision Dairy Intelligence Platform | React.js, Node.js, Express.js, MongoDB, Chart.js

- Designed and built a full-stack MERN platform for real-time dairy cattle welfare monitoring, deployed live and publicly accessible at cownet-ai.vercel.app.
- Backed by a co-authored IEEE-format research paper identifying 10 deployment gaps in an existing multi-agent system and proposing a temporal graph transformer + SHAP-explainable + federated-learning architecture, presented at ICNACT 2026.
- Built dashboards visualizing isolation risk scores, real-time alerts, and social-network graphs, with a UI/UX designed for non-technical, rural end users.

Ayodhya Blessings - The Divine of Ayodhya | React.js (TypeScript), Node.js, Express.js, Vite Live

- Built and deployed a full-stack TypeScript web app for exploring Ayodhya's temples and heritage sites, with a decoupled React (Vite) frontend and Node.js/Express backend, independently developed and version-controlled.

React E-Commerce MERN Application | React (TypeScript), Node.js, Express.js, MongoDB

- Implemented JWT authentication, password hashing, shopping cart, order management, and payment gateway integration; deployed via CI/CD with Redux-managed state.

SHG Inventory Management System | React, Tailwind CSS, Node.js, MongoDB

- Built role-based access control, live stock updates, and QR-code stock verification for Self Help Groups, cutting manual entry errors.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, HTML, CSS, SQL

Frameworks & Libraries: React.js, Redux, Context API, Node.js, Express.js, Flask, Tailwind CSS

Databases: MongoDB, Mongoose, SQLite, SQL

Cloud & DevOps: Vercel, CI/CD Pipelines, Git, GitHub, Grafana, Prometheus

Core CS & Practices: Data Structures & Algorithms, REST API Design, JWT Authentication, System Design, Object-Oriented Programming, Agile/Scrum

CERTIFICATIONS & ACHIEVEMENTS

- Conference Presentation - ICNACT 2026, VIT Bhopal University (paper: "HerdIntel: A web-based platform for tracking real-time dairy cow welfare monitoring and computation systems")
- Research Internship Certificate - IIIT Naya Raipur Outreach Program | CDO Intern Participation Certificate - Chief Development Office, Ayodhya
- CodeAlpha Participation Certificate | Olympiad Participation Certificate
- Forage Job Simulations - Introduction to Strategy Consulting (BCG) | Operations Industrial Engineer (Siemens)
